PROFESSIONAL SUMMARY

Software Engineer with experience building React and TypeScript applications. Have shipped real-world products across EdTech, e-commerce, healthcare and international NGO platforms, from freelance builds to collaborative team environments. Constantly learning, fully ownership-driven and focused on growing.

SKILLS

Frontend: React, TypeScript, JavaScript, Tailwind CSS, Redux, Material-UI, Electron

Backend & Data: Python, Node.js, Next.js, Express.js, Flask, RESTful APIs, PostgreSQL, MongoDB, MySQL

Cloud & Tools: Azure, Git, Postman, Microsoft Power Automate, Firebase

Data & ML: Pandas, NumPy, Matplotlib, Seaborn, Scikit-learn, TensorFlow/Keras, PyTorch

Other: Figma, JWT, API integrations

WORK EXPERIENCE

CGIAR - IWMI HQ - Sri Lanka (July 2025 - present)

Consultant Software Engineer (Dec 2025 - Present)

Research Intern - Software Development (July 2025 - Dec 2025)

IWMI-CGIAR - Multi-Dimensional Digital Inclusiveness Index (MDII)

Technology Stack - Electron, React, Tailwind CSS, TypeScript, Azure, Microsoft Power Automate, RESTful API, KoboToolBox

- Developed offline-capable Electron + React + TypeScript desktop application for field assessments of digital inclusivity in low-connectivity agricultural regions, enabling data collection in remote agri/water management contexts.
- Built web-based Admin/Coordinator dashboard with real-time progress tracking; integrated KoboToolbox APIs, Azure Blob Storage, Azure deployment and Power Automate flows significantly reducing 80% of the manual workload and improving global data management efficiency for sustainability initiatives.

Freelance Software Engineer (Aug 2023 - Present)

UmmahConnect (2025) - React, TypeScript, Express Ts, Redux, Tailwind, MongoDB, EmailJS, Stripe, JWT

- Full-stack development (React, TypeScript, Express, Redux, Tailwind, MongoDB, Stripe, JWT) of Islamic education platform connecting learners with experts serving thousands globally with user dashboards and secure payments.

SmartEdu (2024) - React, TypeScript, Express Ts, Redux, MongoDB, Docker, EmailJS, JWT

- Built LMS with React/TypeScript dashboards, course management, enrollment, and progress tracking (Dockerized) — enhancing education accessibility.

Gearup (2023) - React, TypeScript, Express Ts, Redux, Tailwind, MongoDB, Docker, EmailJS, Stripe, JWT, Google auth 2.0, Google Analytics, Figma

- Developed intuitive React/TypeScript frontend for e-commerce futsal booking platform (MERN stack, Stripe, Google Auth) — improving user experience and booking efficiency.

Loonslab (Pvt) Ltd (Aug 2023 - Aug 2024)

Trainee Software Engineer

Technology Stack - React, Material-UI, Microservice Architecture, PostgreSQL, Keycloak, RESTful API

Swastha

- Created responsive React + Material-UI interface for stock/healthcare management system for Sri Lanka's Health Ministry which is currently being used across over 1,200 hospitals nationwide, improving usability and operational efficiency through close client collaboration.

VPA - Electronic Management System - University of VAPA

- Developed key frontend components with React + Material-UI enhancing system efficiency and usability for university operations for users including students, lecturers and staff.

EDUCATION

BSc (Hons) in Computer Science with Industrial Experience – First Class Honours

Informatics Institute of Technology – University of Westminster/UK (2021 – 2025)

PUBLICATIONS & RESEARCH

Under Review - RECOMB 2026 (30th Annual International Conference on Research in Computational Molecular Biology)

mitoMatch Genomic Web Tool (2024): Full-stack ML application (React frontend + Flask backend + MongoDB) for mtDNA analysis; used BioPython, Pandas, NumPy, SHAP for model interpretability, identifying ethnicity/geographic origins from genetic data.

LEADERSHIP & ADVOCACY

WTech Forum Ambassador - SLASSCOM (Sri Lanka Association for Software and Services Companies) | (2022 - Present)

Advocate for women's participation and leadership in Sri Lanka's tech sector; contribute to diversity and inclusion initiatives.
